

Tanton Fields

A brief overview of the project

Welcome to the Third edition of Kier Living's Tanton Fields newsletter.

The second surgery took place at Stokesley Town Hall on Thursday 4th January 2018.

A third construction clinic is booked in at the town hall Stokesley on Thursday 8th February 2018 2.30 – 4.00

Over the coming weeks our site accommodation will start arriving on site, this will require large delivery vehicles and programmed to reduce congestion.

The main roads working parallel with Woodlands Walk of the development are under construction and tarmacadam's laid weather permitting in the next few months.

Piling works are continuing on Site along with the sound and vibration monitoring.

All our drawings are available on the Hambleton District Council in the planning portal www.hambleton.gov.uk

Project type

New build housing

Location

Tanton Road, Stokesley

Start date

October 2017

Competition date

Spring 2022

Update

Throughout January we have been in consultation with the following official bodies

Environment Agency (EA)

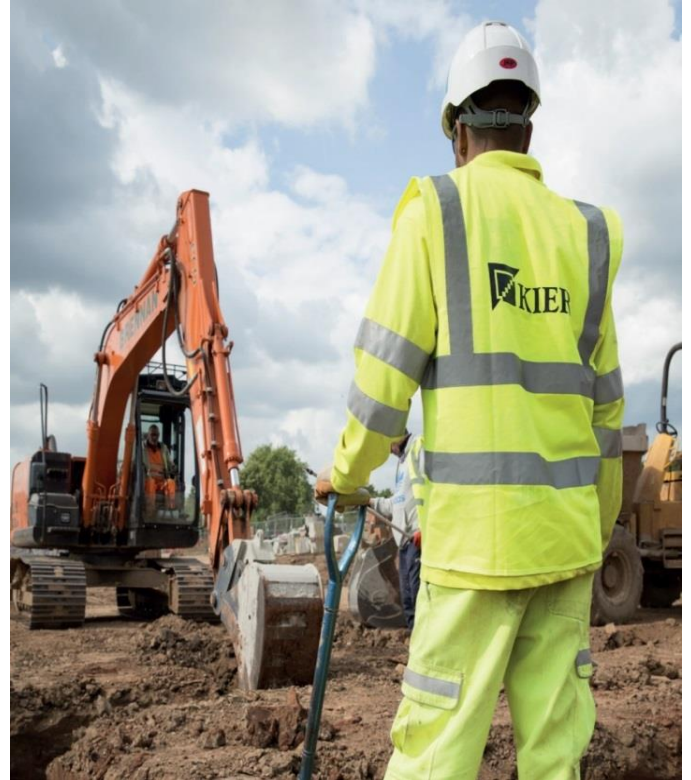

Working closely with the EA to enable us to clean out all the gutters and streams on the development. These works are now complete.

Environmental Health (EH)

We have been working with the EH to ensure that what we are doing is to a minimum impact on our neighbours.

Hambleton District Council (HDC)

We have had HDC on site with their engineers to check the levels adjacent to Woodlands walk and to check the gutters and streams.

Construction sites are dangerous places. We understand watching construction site progress can be an interesting and unusual event. We would ask that children are kept away from site and where possible you witness the works from a safe distance.

Moving forward....

Road Construction on going

Piling works commence on going

Phase 2 fill works commenced ongoing

There will be manned 24hr security on site out of our working hours.

Emergency contact numbers are displayed on the main gates.
